

Rolls-Royce Motor Cars
Ghost Family

NO ORDINARY POWER

Dramatic yet graceful. Effortlessly simple with cutting-edge technology, Ghost and Ghost Extended Wheelbase forge a silent path of serenity through an ever-changing world with no ordinary power.

But this power goes beyond what lies beneath the bonnet. The design at the front brings a poise and verve whilst the luxurious interior with a choice of either full grain or natural grain leather and lambswool floor mats is instantly captivating.

Uncompromising, never ordinary, Ghost gives you complete control, whether you choose to drive or be driven.

LESS IS MORE

The ethos of Ghost is simplicity and every detail has a timeless elegance and purity. The classic 2:1 proportions of the wheel to body height ensure Ghost is a Rolls-Royce through and through. The dynamic design at the front adds more focus and edge.

The LED headlights have an instantly recognisable shape, which is beautifully framed by the daytime running lights. This powerful look is accentuated with the subtle sculpting of the bumper while the chrome finish on the lower grille create a contemporary feel.

Seize every opportunity to make a statement. Choose from three unique designs for the 21" wheels, now also available in an optional bi-colour finish – creating even more options for matching wheels to the exterior paintwork. Every one features a unique self-righting wheel centre that always correctly displays the Rolls-Royce monogram.

TO DRIVE IS TO COMMAND

Step into Ghost and take control. The modern finishes and the contrast leather highlights instantly create a dynamic feel. With the Spirit of Ecstasy Rotary Controller you can access directions, the internet or music and even scribe letters onto the touchpad with a mere swipe of your finger, ensuring nothing distracts you from the pleasure of driving. The front seats with thigh support place you in the perfect position for a truly effortless drive. Wherever your journey takes you.

ELEGANCE REFINED

The sleek, contemporary interior of Ghost comes with comfort built into every inch. From the luxurious lambswool floor mats, right through to the cashmere blend or optional leather covered roof lining above you, this is a space to enjoy.

Meticulously modelled seats are gently angled towards each other to provide more comfort. To keep you alert and refreshed on even the longest journeys, you can choose to add the massage or ventilation option. Should you desire even more space, Ghost Extended Wheelbase gives you an extra 17cm of legroom to stretch out, work or just relax and enjoy the drive.

TRAVEL IN STYLE

Surround yourself with unrivalled craftsmanship. Passengers in the rear seats can relax into the sumptuous support offered by the Comfort Headrest Cushions, with soft, soothing cores encased in the highest-grade natural grain leather.

The new brushed aluminium fascia provides a modern finish that offers a beautiful contrast to the sleek, piano black lacquer of the door cappings.

For a dazzling finishing touch, opt for our highly bespoke Starlight Headliner available for standard wheelbase models, and travel beneath your own constellation. Our expert craftspeople painstakingly fit over 1,300 delicate fibre optic strands into the finest leather, bathing the interior in starlight. It's the perfect alliance of traditional craftsmanship and modern technology.

TAILORED TO YOUR TASTE

Personalise your car by choosing your own colour scheme for the hand-stitched leatherwork, adding a unique statement by selecting bespoke piping and stitching for your seats. Opt from bold Lime Green to sumptuous Dark Olive from our extended colour palette of threads.

The wooden finish is equally personal. Each set of hand-crafted veneers comes from a single tree, creating a seamless flow from fascia to rear compartment. Every piece is hand-polished to create a deep flawless shine and you can select from classic burrs like Paldao or choose a crossbanded veneer for a more contemporary feel.

Customise your Ghost from the dashboard to the passenger door panels. Choose from the selection of veneer options all with their own character and unique finish.

EFFORTLESS TECHNOLOGY

Ghost is one of the most technologically advanced cars ever built. Powered by a twin turbo 6.6 litre V12 engine, every detail is precisely engineered for an effortless driving experience.

Driving becomes intuitive as technology delivers more intelligence than ever before. Satellite Aided Transmission uses GPS data teamed with the navigation system to scan the road. It then chooses the right gear on the eight-speed transmission to deliver power smoothly, without any unnecessary gear changes. So you can surge around every corner and accelerate out of every bend.

A CLEARER VISION

Everything inside Ghost is designed to make driving intuitive. The Head Up Display projects driving information such as directions and the speed limit directly onto the windscreen, allowing you to concentrate on the road ahead.

As darkness falls, Night Vision means you can clearly see what lies ahead. A discreet infrared camera in the grille detects body heat of pedestrians and animals up to 300 metres away. Their thermal image is shown on the Control Centre Display, giving you time to pass them safely. Every detail has been considered, right down to the 3D city view in navigation, so what you see on the screen matches what you see outside.

YOU ARE IN CONTROL

The Bespoke Audio System delivers sound that inspires. Immerse yourself in the unmatched auditory experience delivered by 18 speakers positioned throughout the vehicle. Finely tuned to offer a rich, deep sound, this Hi-Fi constantly monitors exterior conditions, and adjusts tone and volume settings automatically. While sound correction eliminates potential loud and dead spots, ensuring a pure, 'larger than live' experience within the car.

Your Ghost is available with the option of our Comfort Entry System that remotely senses the key's presence, so you can unlock the door simply by grasping the handle. You have unprecedented control inside the car too. With a Spirit of Ecstasy Rotary Controller in the rear, you can access your personal choice of entertainment through the theatre system. Independently controlled high-resolution 9.2" screens create a cinematic experience in the rear that makes even the longest journey entertaining.

STAY CONNECTED

Keep in touch, even when you are on the move. A WiFi Hotspot makes browsing the internet on any device easy. Rolls-Royce Connect integrates innovative functions into your car from your iPhone. Your chosen RSS news feeds will keep you updated on the move and you can listen to any radio station from around the world.

With Google™ Send to Car and Local Search you can transfer your chosen destination directly into the navigation system, so you know where you are going as soon as you start the engine.

A NEW SENSE OF PURPOSE

The Spirit of Ecstasy has always been the vanguard of Rolls-Royce and now she has been slightly raised in height to create an even more dynamic, yet graceful presence.

Every detail that flows behind her is equally considered: from the elegant wake in the bonnet to the paintwork. With five layers of primer, paint and high-gloss clear coat, as well as a meticulous hand-polished finishing process, Ghost looks flawless from every angle. Whichever colour you select, as a final touch you can choose to add single or double coachlines hand-painted by our master craftspeople.

STEP INTO DARKNESS

A new dimension in darkness. An irresistible invitation to the risk-takers and the rule-breakers. For those who crave the bolder side of life.

This is Ghost Black Badge.

An unexpected twist on the world's most iconic automotive marque, Black Badge has an undeniable presence, a head turning model for those who relish adventure and wish to explore the darker edges of existence.

OWN THE NIGHT

When still, Ghost Black Badge exudes a magnetic presence.

From the moment it arrives, the dark chrome grille announces a daring new aesthetic. Layer upon layer of Xirallic® paint enhances its dramatic silhouette and takes the black bodywork to new depths, complemented with flashes of dark chrome on the boot lid and exhaust pipes. The 21" carbon fibre composite wheels add to the striking presence. While the badge and Spirit of Ecstasy, also reborn in black, become contemporary incarnations of the most classic of automotive icons.

This is a motor car that does not hide in the shadows... but revels in the dark.

INCOMPARABLE INTENSITY

Darkened vent surrounds. Carbon accents. Beyond the door of Ghost Black Badge lies a sleekly luxurious cabin cloaked in attitude. Where the smoothest black leather contrasts with a vivid palette of bold colours. Aircraft-grade aluminium thread has been expertly woven into carbon fibre to form a new technical fibre, unique to the automotive world. This striking design transforms the inside, from the fascia to the door cappings and picnic tables, surrounding you with the glint of possibility.

An infinity symbol embellishes the clock and rear centre seat: the definitive symbol for a person with a daring attitude and desire to push limits.

UNLEASH THE POWER

Beyond the bold aesthetics, power lies poised.

Enhanced steering and suspension heighten the effortless ride that is unmistakably, inimitably Ghost. Yet, as the speed increases, a new dimension to this distinctive model reveals itself. Armed with a muscular uprated 6.6-litre engine, Ghost Black Badge is capable of breathtaking pace. The honed gearbox delivers exceptional torque and lower ratio for an assured straight-line performance.

Driver and motor car inextricably connected to the road. Responses are sharpened. Reaction becomes intuition. This is a model designed for the thrill of the drive.

INSPIRATION

IS EVERYWHERE

Your Rolls-Royce is the ultimate expression of you. Whatever inspires you – an iconic era, a favourite city, the beauty of nature – our Bespoke team can bring it to life in your car, to reflect your tastes exactly. The only limit is your imagination.

BESPOKE TO YOU

There are so many ways you can personalise your Ghost. Select an alternative black version of the famous Rolls-Royce clock, or add a personalised motif to the headrest, embroidery and treadplates. Even the Spirit of Ecstasy can be finished to your taste: illuminated or gold plated for example. For a final flourish, add your design to the coachline, which is painted by hand with a fine brush made from ox and squirrel hair.

Collaborate with your dealer and the Bespoke team to create a truly unique motor car.

IGNITE

YOUR IMAGINATION

This Rolls-Royce Ghost found inspiration in the majestic riches of India. Named after the 'Tiger of Mysore', a legendary Sultan and ruler of the kingdom of Mysore in 18th-century India, this Bespoke model echoes the golden age of Maharajas and princely states. A jewel in the Ghost crown, it brings together India's national bird, capturing the power of the tiger and the prowess of the peacock – an instant collector's item.

The graceful exterior contrasts vivid Peacock Blue with cool tones. Inside, hand-stitched tiger and peacock motifs adorn the headrests, coachline and marquetry. The Seashell armrest emulates the peacock unveiling its colours: when lowered, feather embroidery in Moccasin and vivid Turchese is revealed.

Standard Wheelbase Technical Specification

Dimensions		Performance*	
Vehicle length	5399 mm / 212.6 in	Top speed	155 mph / 250 km/h (governed)
Vehicle width	1948 mm / 76.7 in	Acceleration 0-60 mph (USA)	4.7 sec (4.8 sec)
Vehicle height (unladen)	1550 mm / 61.0 in	Acceleration 0-100 km/h (USA)	4.9 sec (5.0 sec)
Wheelbase	3295 mm / 129.7 in	Fuel Consumption	
Weight		Urban	21.2 ltr/100 km / 13.3 mpg (Imp.)
Unladen weight (DIN)	2360 kg / 5203 lb	Extra urban	9.8 ltr/100 km / 28.8 mpg (Imp.)
Curb weight (USA)	2490 kg / 5490 lb	Combined consumption	14 ltr/100 km / 20.2 mpg (Imp.)
Engine		CO ₂ emissions (combined)	327 g/km
Engine / cylinders / valves	V / 12 / 48	Fuel Consumption (USA and Canada)†	
Fuel management	Direct injection	City (USA)	13 mpg
Maximum torque @ engine speed	780 Nm / 575 lb ft @ 1500 rpm	Highway (USA)	20 mpg
Power output @ engine speed	563 bhp / 570 PS (DIN) / 420 kW @ 5250 rpm	City (Canada)	17.3 ltr / 100 km
		Highway (Canada)	10.5 ltr / 100 km

Extended Wheelbase Technical Specification

Dimensions		Performance*	
Vehicle length	5569 mm / 219.3 in	Top speed	155 mph / 250 km/h (governed)
Vehicle width	1948 mm / 76.7 in	Acceleration 0-60 mph (USA)	4.8 sec (4.9 sec)
Vehicle height (unladen)	1550 mm / 61.0 in	Acceleration 0-100 km/h (USA)	5.0 sec (5.1 sec)
Wheelbase	3465 mm / 136.4 in	Fuel Consumption	
Weight		Urban	21.4 ltr / 100 km / 13.2 mpg (Imp.)
Unladen weight (DIN)	2450 kg / 5401 lb	Extra urban	9.8 ltr / 100 km / 28.8 mpg (Imp.)
Curb weight (USA)	2570 kg / 5665 lb	Combined consumption	14.1 ltr / 100 km / 20 mpg (Imp.)
Engine		CO ₂ emissions (combined)	329 g/km
Engine / cylinders / valves	V / 12 / 48	Fuel Consumption (USA and Canada)†	
Fuel management	Direct injection	City (USA)	13 mpg
Maximum torque @ engine speed	780 Nm / 575 lb ft @ 1500 rpm	Highway (USA)	20 mpg
Power output @ engine speed	563 bhp / 570 PS (DIN) / 420 kW @ 5250 rpm	City (Canada)	17.3 ltr / 100 km
		Highway (Canada)	10.5 ltr / 100 km

*Manufacturer's test results. Actual acceleration results may vary depending on specifications of the vehicle, road and environmental conditions, testing procedures and driving styles. These results should be used for comparison only and verification should not be attempted on public roads.

†EPA (Preliminary) – Use estimated mpg for comparison with other cars. Your mileage may vary with options, driving conditions, driving habits, the car's condition, speed and trip length. Actual highway mileage will probably be less. The fuel efficiency data was determined using approved Transport Canada Test Methods.
