ABOVE & BEYOND

Ever since the first Land Rover vehicle was conceived in 1947, we have built vehicles that challenge what is possible. These in turn have challenged their owners to explore new territories and conquer difficult terrains. Our vehicles epitomize our brand. Vehicles with exemplary design credentials and engineering capabilities. Which is how we continue to break new ground, defy conventions and encourage each other to go further. Land Rover truly enables you to make more of your world, to go above and beyond.

DESIGN

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

DESIGNED. LIKE NO OTHER

How do you redefine an icon? Push harder. Dig deeper. You go above and beyond. You capture its very essence. Then you reimagine it. You design, engineer and build it without compromise. Until you’ve created a vehicle that’s absolutely of the moment. One that’s visually compelling, with a go-anywhere-do-anything attitude and toughness at its very core. Capable of great things, this is Land Rover Defender. It couldn’t be anything else.

Off-road driving requires advanced training and experience. These activities may result in injury and/or property damage. Always check your route, surfaces and surrounding areas before entering and exiting unsurfaced roads and frozen terrain.

Vehicle shown is Defender 90 S in Pangea Green with optional Satin Protective Film.

Specifications, optional features and their availability may differ by vehicle specification (model and powertrain), or require the installation of other features in order to be fitted. Please contact your local Retailer for more details, or configure your vehicle online.

All in-car features should be used by drivers only when safe.

Everything about Defender exudes quiet confidence; from its purposeful stance to its reductive, sophisticated surfaces, its integrity is beyond reproach. Both highly desirable and seriously capable. Tough, durable and highly functional, the interior of the Defender bears testimony to the vehicle's spirit of adventure. Structural elements are made of robust materials. Intuitive technologies – like those you're more likely to find on a smartphone – deliver a connected, engaged drive without taking anything away from the vehicle's ambience. Added to which, everything has been designed with practicality in mind. With an optional front jump seat¹ and center console², the space can be configured any number of ways. Including yours.

¹Optional feature. May require fitment of additional features.
²Model dependent.

PURPOSEFUL DESIGN. ENDLESS POSSIBILITIES

Defender is our most capable Land Rover yet. You can opt for either a 90 or 110 body design together with a choice from four levels of finish; Standard, S, SE and HSE. (The differences include their individual wheels - size and style - interior trim and levels of technology). You can have up to six seats in the 90 and the option of a third row with 5 + 2 seats¹ in 110.

There are four models - Defender, Defender First Edition, Defender X-Dynamic and Defender X - and four Accessory Packs, each with a distinctive character. It all adds up to the greatest possible levels of personalization.

 BUILD YOUR OWN

¹Only available as part of a pack.
Vehicles shown are Defender 90 S and Defender 110 SE in Pangea Green with optional Satin Protective Film.

NEW TO DEFENDER

X-DYNAMIC

Built for the toughest demands. With incredibly durable Robustec ribbon accenting on the seats, Black exposed rear recovery eyes and illuminated metal treadplates, Defender X-Dynamic is ready for just about anything.

EXTERIOR DESIGN

Vehicle shown is Defender 90 SE in Pangea Green with optional Satin Protective Film.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

Impressive proportions and a reassuringly recognizable silhouette help define the arresting looks of the Defender. While short overhangs, great ground clearance and upright front and rear elevations give credence to the vehicle’s capabilities. Floating bollards and alpine lights add to its personality, with solid shoulders and powerful squared-off wheel arches that communicate the vehicle’s purposeful stance. This is design with undoubted integrity. And unrivaled purpose.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

Approachable. Confident. No nonsense. With its compact, upright look, the Defender front profile features a raised hood, sculpted grille and detailing. Together with such characterful touches as round headlights and some of our most sophisticated surfaces yet, these aspects help reinforce the vehicle’s overriding sense of capability.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

A celebration of design and functionality. The perfect fusion of form, vertical stance and attitude. From behind, the vehicle looks both utterly modern and perfectly planted. While details like the side-opening tailgate with externally mounted full-size spare wheel and characterful tail lights all point to the distinctive nature of the Defender.

INTERIOR DESIGN

Interior shown is Defender 90 S in Khaki/Ebony.

DESIGN

TECHNOLOGY

PERSONALIZATION

EXPOSED STRUCTURAL SURFACES. POWDER-COATED ACCENTS

Uncompromizingly tough, the visible fixings for the major interior components underscore absolute integrity. Strength, durability and highly functional interior architecture are in its DNA.

For instance, the interior's exposed structural surfaces are finished in a highly durable textured powder coat, extending to the steering wheel and doors*. The cross car beam is an integral structure which adds greatly to the Defender strength.

*When Meridian™ audio system is fitted.

DURABLE INTERIOR MATERIALS

The spirit of boundless adventure is the first and lasting impression of the Defender interior. Thanks in part to its materials. These include a canvas-inspired Robust Woven Textile, which is offered with the grained leather seats to reduce wear and tear in areas where it is needed most.

Defender X-Dynamic takes this even further. In the cabin you'll find our highly durable Robustec. It's PU platelets are incredibly hardwearing and abrasion resistant. So much so, in fact, that when the fabric was tested it passed all usual tests with flying colors replicating a lifespan equivalent to 30 years.

Defender X unique hard-wearing seat materials include Windsor leather combined with Steelcut Premium wool textile. There is also a choice of optional veneers and finishers on the console, including an open pore wood available with a Rough-cut Walnut or Natural Smoked Dark Oak veneer.

DESIGN

ACCESSORY PACKS

HELP ME CHOOSE

Our four optional accessory packs have been created to suit your needs. To suit your lifestyle. Enhancing the vehicle's capability and toughness even further. So, whether you're exploring the rugged outback or conquering the commute, you can go your own way.

EXPLORER PACK

Discover your own trail in most terrain. Explorer Pack equips Defender to defy conventions and conquer some of the most uncharted landscapes.

Vehicle shown is Defender 110 SE in Hakuba Silver.
Accessories shown: Explorer Pack with Front Expedition Protection System, Fixed Side Steps, and Deployable Roof Ladder upgrades.

EXPLORER PACK

CONSISTS OF:

- Raised Air Intake** is ideal for dusty and sandy conditions.
- Expedition Roof Rack** has a lightweight, fully integrated design, providing a dynamic load capacity of up to 291 lbs*.
- The 0.8 cu.ft **Exterior Side-mounted Gear Carrier** is easy to access, lockable and waterproof. It's perfect for carrying items such as walking boots or wetsuits.
- Matte Black Hood Decal** enhances the hood's appearance and includes a '90' or '110' cut-out detail.
- Wheel Arch Protection** provides additional protection when driving off road.

*Defender 110 with Off-Road tires.

Front and Rear Classic Mudflaps retain the heritage of Land Rover Defender while protecting the paintwork.

Spare Wheel Cover protects the rear-mounted spare wheel.

UPGRADES

Front Expedition Protection System provides robust protection to the front of the vehicle and the raised corners improve the front approach angle.

Improving access to the roof, the **Deployable Roof Ladder** makes storing your belongings easier. For added security, the ladder can be locked in the stored position.

Fixed or Deployable Side Steps aid access into the vehicle. Deployable Side Steps¹ automatically deploy as the doors are opened.

Bright Side Tubes² enhance the side of the vehicle while providing protection to the door sides during off-road driving.

The **Cargo Space Rubber Mat** is waterproof with a non-slip surface and helps protect the rear cargo space floor from general dirt, while **Deep-sided Rubber Mats** provide the ultimate in footwell protection.

¹Available for Defender 110 only. Not compatible with Fixed Side Steps or Bright Side Tubes.
²Not compatible with Fixed Side Steps or Deployable Side Steps.

ADVENTURE PACK

Take your passions to new territories. Adventure Pack equips Defender to take you off the beaten track and into nature’s playground.

Vehicle shown is Defender 90 S in Pangea Green.
Accessories shown: Adventure Pack with Fixed Side Steps and ‘A’ Frame Protection Bar upgrades. Front Undershield also shown.

ADVENTURE PACK

CONSISTS OF:

Clean your equipment easily with the 0.2 cu.ft pressurized **Portable Rinse System**. Including a hose and shower attachment, it can be used to rinse boots, bikes and wetsuits.

Secured to the rear seat, keep all of your essential items at hand, yet neatly out of sight. Easily removable, the versatile 0.7 cu.ft **Seat Backpack** can also be taken with you when you leave the vehicle.

Bright Rear Scuff Plate protects the rear bumper from scratches and scuffs while loading the vehicle.

Front and Rear Mudflaps add to the design of the vehicle and protect the paintwork from dirt and debris.

Spare Wheel Cover protects the rear-mounted spare wheel.

The **Integrated Air Compressor** is fitted in the cargo space and can be used to inflate vehicle tires, bike tires, airbeds and other inflatable items.

The 0.8 cu.ft **Exterior Side-mounted Gear Carrier** is easy to access, lockable and waterproof. It's perfect for carrying items such as walking boots or wetsuits.

UPGRADES

The **'A' Frame Protection Bar** increases protection against damage to the front of the Defender, as well as enhancing the vehicle's appearance.

Fixed or Deployable Side Steps aid access into the vehicle. Deployable Side Steps¹ automatically deploy as the doors are opened.

Bright Side Tubes² enhance the side of the vehicle while providing protection to the door sides during off-road driving.

The **Cargo Space Rubber Mat** is waterproof with a non-slip surface and helps protect the rear cargo space floor from general dirt, while **Deep-sided Rubber Mats** provide the ultimate in footwell protection.

¹Available for Defender 110 only. Not compatible with Fixed Side Steps or Bright Side Tubes.
²Not compatible with Fixed Side Steps or Deployable Side Steps.
Vehicle is shown with Front Undershield, 'A' Frame Protection Bar, and Cross Bars.

COUNTRY PACK

Bring the muddiest of boots. Country Pack equips Defender to embrace the elements and make every journey truly memorable.

Vehicle shown is Defender 110 SE in Hakuba Silver.

TESTED TO THE EXTREME

Three-quarters of a million miles of on and off-road drives. 45,000 individual tests. From 122°F to -40°F. Crossing the dunes of Dubai to sweeping down the straights of the Nürburgring. We've conducted altitude tests, drenched Defender in 26,966 US gallons of dyed water in our monsoon facility and engineered its tires to withstand greater impact. In fact, we've gone to more challenging extremes than ever before to create a vehicle that's capable of great things. This is Defender.

 BUILD YOUR OWN

GO ALMOST ANYWHERE, DO ALMOST ANYTHING

Defender has been engineered so you can dream bigger.
Go above and beyond.

DESIGN

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

ALL WHEEL DRIVE (AWD)*

Compelling performance. Off and on road. The system intuitively controls the torque distribution between the front and rear axle. On challenging surfaces, such as sand, grass or snow, torque can be balanced between the front and rear wheels to maximize traction. In extreme conditions, where the front or rear wheels lose traction, 100 percent of engine torque can be distributed to the opposite axle for optimum grip. It’s your world. Take command.

TWIN-SPEED TRANSFER BOX*

An additional set of lower gears can prove invaluable in challenging conditions such as steep inclines or declines, off-road driving or when towing.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

Vehicle is shown with accessory Front Expedition Protection System. It improves off-road capability by increasing the front approach angle. Also shown is the Explorer Pack and Deployable Roof Ladder.

DESIGN

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

COIL SUSPENSION AND ELECTRONIC AIR SUSPENSION

The coil sprung suspension system combines double wishbones at the front with an advanced multi-link rear suspension, to create an agile and responsive chassis. A comfortable and capable drive is ensured by Electronic Air Suspension¹. Select from an access height of 1.6" below normal ride height, to an extended height of up to 3.0". For extreme off-road conditions, a further extended ride height of 2.8" is available. Even across unsteady surfaces it provides exceptional wheel articulation and poise*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details.

¹Model dependent. Only available as part of a pack.

ELECTRONIC ACTIVE DIFFERENTIAL

On or off road. In ice, rain or snow. The optional Electronic Active Differential¹ helps ensure the greatest level of traction. It does so by controlling the slip between the left and right wheels on the rear axle, helping to deliver effortless capability*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions, etc. Driver should not assume that these systems will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

¹Model dependent. Only available as part of a pack.

Vehicle shown is Defender 110 X in Gondwana Stone.

CONFIGURABLE TERRAIN RESPONSE^{®1}

Thanks to a world-first in Terrain Response, you can now individually configure the Defender powertrain, steering, differentials and traction control settings. This means you can go beyond – be it the Siberian tundra, or rock crawling in Moab*. So, get behind the wheel and discover what you’re truly capable of.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

¹Model dependent. Only available as part of a pack.

TERRAIN RESPONSE® 2

This vehicle is for those who aren’t afraid to get out and live the way they want to live. Our unique Terrain Response systems enable the driver to optimize the vehicle’s engine, gearbox, center differential and chassis systems to match the demands of the terrain.

The optional Terrain Response 2¹ takes the capabilities of our award-winning system to a new level. It features an automatic setting which monitors the terrain and systematically selects the most suitable setting*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

¹Model dependent. Only available as part of a pack.

-  Grass, Gravel, Snow
-  Mud and Ruts
-  Sand
-  Rock Crawl¹
-  Wade¹

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

HILL DESCENT CONTROL

Difficult slopes? Hill Descent Control (HDC®) assists you with tricky descents by maintaining a constant speed and applying braking separately to each wheel. Hill Launch Assist is designed to help prevent the vehicle from rolling backwards as it pulls away on an incline. The vehicle also utilizes Gradient Release Control, which is designed to prevent the vehicle accelerating too quickly on a steep incline when the driver releases the brake*.

ALL TERRAIN PROGRESS CONTROL (ATPC)

All Terrain Progress Control (ATPC)¹ is a state-of-the-art optional system. It enables you to set and maintain a steady speed in challenging conditions such as slippery surfaces, including mud, wet grass, ice, snow and dirt roads. Operating like a conventional cruise control system, it functions between 1.1mph and 18.6mph**, helping the driver to maintain concentration on the terrain ahead*.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. **Always follow local speed limits.

¹Model dependent. Only available as part of a pack.

DESIGN

ACCESSORY PACKS

CAPABILITY

PRACTICALITY

TECHNOLOGY

PERSONALIZATION

WADING

Life has a habit of throwing unexpected challenges our way. That’s why Defender has a wading depth of 35.4"¹, so crossing water need not be one of them. The Wade Program in Terrain Response² raises the vehicle using Electronic Air Suspension^{2*}, while Wade Sensing uses ultrasonic sensors in the door mirrors to visually and audibly alert you if the water approaches the vehicle’s maximum wading depth^{**}.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details. **Driving in floodwaters or moving water should be avoided. Driving through water can be extremely dangerous. The Wade Sensing feature only detects depth of water the vehicle is in at the present time and not of water ahead or around the vehicle. Therefore, Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

¹Coil Suspension 33.4". Air Suspension 35.4". ²Model dependent. Only available as part of a pack.

Vehicle shown is Defender 90 S in Pangea Green with optional Satin Protective Film.
Accessories shown include: Chequer Body Protection Kit, Spare Wheel Cover and Expedition Roof Rack (Roof Rails required for fitment).

TOWING*

Whatever you take. Wherever it is you decide to go. The Defender has a towing capability of up to 8,200lbs which means it can readily respond to some of the most challenging demands. Combined with this is the optional Advanced Tow Assist¹, which allows you to reverse a trailer while Defender takes care of the counter-steering. The Touchscreen^{**} will also display both the current and desired trailer trajectory¹.

^{*}Never tow beyond a vehicle’s permissible towing capacity. Before towing, please consult the owner’s manual or your local authorized Land Rover Retailer for more detail. ^{**}Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

¹Model dependent. Only available as part of a pack.

GAS

There are two engines available for Defender: P300 4-cylinder Gas, or a P400 6-cylinder Gas. Each has been optimized for specific attributes to cater for all needs.

The Defender gas engines are powerful, which can provide an engaging and direct driving experience. They are refined and are suited to shorter, stop-start journeys.

All engines are equipped with intelligent Stop/Start technology which is designed to reduce emissions.

- 1

48V LITHIUM-ION BATTERY
- 2

48V/12V DC-DC CONVERTER
- 3

MEDIUM VOLTAGE JUNCTION BOX
- 4

BELT-DRIVEN INTEGRATED STARTER GENERATOR
- 5

48V ELECTRIC SUPERCHARGER

Please refer to the accompanying Technical Specification for full details.

GAS MHEV

Mild Hybrid Electric Vehicle (MHEV) technology is fitted to the 6-cylinder P400 engine. It harvests and stores energy normally lost during vehicle deceleration and intelligently redeploys it to increase the engine’s efficiency. This system helps to boost the vehicle’s performance.

SIMPLICITY AS STANDARD

No more endless menus. No more fidgety commands. Pivi Pro*, Land Rover’s impressive and seamless in-car infotainment system, enables you to do 80 percent of most tasks with just one or two taps. All on the home screen. Engineered around a smartphone-like interface, it features an intuitive 10" Touchscreen that allows you to go right to what’s needed, when you need it. Voice control reacts to a simple wake up phrase such as ‘Hello Land Rover’. Plus, you can even connect your smartphone** and enjoy your favorite compatible apps.

*Do not use Land Rover InControl® or Pivi Pro features under conditions that will affect your safety or safety of others. Driving while distracted can result in loss of vehicle control. Land Rover InControl has a number of purchasing options that are available. As we systematically roll out the Land Rover InControl suite of products, specific features, options and its availability remain market dependent. Certain Pivi Pro features use an embedded SIM card, may require a data plan with separate terms and conditions, and an additional subscription after an initial term. Mobile connectivity cannot be guaranteed in all locations. The Land Rover InControl Apps™ and Land Rover Remote™ smartphone apps will work with Android™ devices from version 4.1 and Apple® devices from iOS V7.0 and must be downloaded from the Apple App Store or Google Play Store. Please see your local authorized Land Rover Retailer for more details. **Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. The Apple CarPlay and Android Auto user interfaces are products of Apple or Google and their terms and privacy statements apply. The interfaces require compatible iPhone or Android smartphone and message and data usage rates apply. Apple CarPlay is a registered trademark of Apple Inc. Android and Android Auto are trademarks of Google Inc.

PREMIUM FUNCTIONALITY

With Pivi Pro*, you can enjoy fast start-up and even greater connectivity. And, since the Remote App is also fitted as standard, your Land Rover Defender is always in the palm of your hand. Preset your navigation, confirm your vehicle’s location, check fuel levels and set the interior temperature – all before you’ve opened the car door. Along the way, intelligent re-routing can find you the best path to take, as well as updating parking availability, fuel price comparisons, café locations and traffic hotspots. Intelligent and intuitive, it also learns your regular and favorite routes, so that Smart Voice Guidance can make sure your song won’t be interrupted with unnecessary instructions. A 12.3" Interactive Driver’s Display is optional, as is a Head-up Display¹ which projects key information onto the windshield in your line of sight, so you can focus on the road ahead**.

*Do not use Land Rover InControl® or Pivi Pro features under conditions that will affect your safety or safety of others. Driving while distracted can result in loss of vehicle control. Land Rover InControl has a number of purchasing options that are available. As we systematically roll out the Land Rover InControl suite of products, specific features, options and its availability remain market dependent. Certain Pivi Pro features use an embedded SIM card, may require a data plan with separate terms and conditions, and an additional subscription after an initial term. Mobile connectivity cannot be guaranteed in all locations. The Land Rover InControl Apps™ and Land Rover Remote™ smartphone apps will work with Android™ devices from version 4.1 and Apple® devices from iOS V7.0 and must be downloaded from the Apple App Store or Google Play Store. Please see your local authorized Land Rover Retailer for more details. **Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

¹Model dependent.

ENTERTAINMENT FOR ALL

We know how important it is for you to stay connected. With Pivi Pro’s Online Pack with Data Plan¹, you can enjoy your favorite music streamed from multiple services, including Spotify, Tunes and Deezer, right through your Range Rover Defender speakers. As passengers, you can all take full advantage of the optional Wi-Fi Enabled with Data Plan², streaming entertainment with up to 20GB of data per month. Whether that’s browsing their socials, playing online games, or immersing themselves in a movie.

¹Fair use policy applies. Standard 1-year subscription, which can be extended after the initial term advised by your Land Rover Retailer. Market dependent. ²Model dependent. Fair use policy applies. After 20GB of data is used within a month, data speeds and functionality on vehicle may reduce for the rest of the month. For details of the Fair Usage Policy associated with this feature, please refer to the InControl Pivi Pro Terms at [landrover.com/pivi-pro-terms](https://www.landrover.com/pivi-pro-terms)

HOW DOES MUSIC MAKE YOU FEEL?

Music has the power to change your mood, evoke memories and affect your wellbeing. It can give you tingles or make you cry. It's why music and cars go so well together. Sitting behind the wheel, listening to your favorite artist, band or composer. It's your space. Your world.

But what if you could do more than simply listen to the music? What if you could feel it, experience it, immerse yourself in it? What if you could make more of a connection with the music and enjoy a greater sense of acoustic involvement in your Land Rover?

British-based Meridian™* Audio are all about the musical experience - the very sense of being there. Their award-winning, precision-engineered audio systems are built on a lifetime of research into psychoacoustics (the science of how the human brain perceives sound) to deliver a performance that is so true to life, you feel every beat, every breath.

*Meridian is a registered trademark of Meridian Audio Ltd. Trifield and the three fields device is a trademark of Trifield Productions Ltd.

WITH MERIDIAN™, YOU’LL FEEL MORE

We’re not simply talking about increasing the volume levels. It’s more about managing the sound stage; intensifying the levels of depth, clarity and realism of the music by using a combination of advanced acoustic technology and strategically positioned speakers to produce an audio platform that is exactly right for your Land Rover’s interior. So wherever you sit in the vehicle – driving seat, passenger seat or rear seat – with a Meridian system, you get the same incredible experience.

Each strike of the piano, every guitar pick, horn blast, chorus and melody reveals itself with precision and texture, just as the artist intended. It’s intimate, dramatic and very atmospheric – whether you’re off-road or stuck in rush-hour traffic.

EXPLORE MERIDIAN

6 SPEAKERS 180W AMPLIFIER POWER

1. SOUND SYSTEM

Exceptional acoustics and audio range with high-quality definition through 6 speakers.

10 SPEAKERS 1 SUBWOOFER 400W AMPLIFIER POWER

2. MERIDIAN SOUND SYSTEM*¹

Feel the rhythm of the music with exceptional definition, crystal-clear highs and full, deep bass with this classic audiophile soundstage. Through the careful management of door-mounted speakers placed nearest your seat, you’ll enjoy a performance that is incredibly smooth, clean and free of strain.

14 SPEAKERS 1 SUBWOOFER 700W AMPLIFIER POWER

3. MERIDIAN SURROUND SOUND SYSTEM*¹

A truly engaging, thoroughly authentic concert hall experience. Driver and passengers are enveloped in the fullness and clarity of an open, spacious performance through a set of side, front and rear speakers. And it’s all seamlessly integrated using Trifield™ technology, so you can sit back and absorb every detail.

*Meridian is a registered trademark of Meridian Audio Ltd. Trifield and the three fields device is a trademark of Trifield Productions Ltd.

Features and their availability may differ by vehicle specification and market.

¹Optional feature. Model dependent.

BRIGHTER LIGHTS. BETTER NIGHT-TIME DRIVING

Defender features all-round exterior LED lighting as standard. LED lights are designed to last the lifetime of the vehicle and use less energy. Premium LED headlights with signature DRL¹ produce a color of light that is closer to daylight, helping you distinguish objects more easily. Driving at night or in poor visibility is made easier by Auto High Beam Assist which switches on automatically and dips for oncoming traffic.

¹Optional feature. Requires fitment of additional features. Model dependent.

CLEAR SIGHT GROUND VIEW*

Thick forest terrain. The odd bough and boulder scattered across the muddy track.
How do you get through with greater confidence?

Available as part of the 3D Surround Camera system, ClearSight Ground View gives you confidence when maneuvering most obstacles. Even bollards in the city. This feature displays a camera view of the front underside of the vehicle on the large central Touchscreen** – in normal circumstances, this area would be invisible to the driver.

*Optional feature. Requires 360° Surround Camera. This feature is not a substitute for safe and attentive driving, and driver should not assume that it will correct errors of judgment in driving. Consult the owner’s manual for more details.
**Driving while distracted can result in loss of vehicle control. Do not operate, adjust or view the navigation or multimedia systems under conditions that will affect your safety or the safety of others. Only use mobile phones and other devices, even with voice commands, when it is safe to do so.

Vehicle shown is Defender 90 S in Pangea Green.
Accessories shown: Adventure Pack with Fixed Side Steps and ‘A’ Frame Protection Bar upgrades. Cross Bars also shown.
Off-road driving requires advanced training and experience. These activities may result in injury and/or property damage. Always check your route, surfaces and surrounding areas before entering and exiting unsurfaced roads and frozen terrain.

CLEAR SIGHT INTERIOR REAR VIEW MIRROR

If the trunk is piled high with equipment and you can't see a thing through the rear window? The Defender ClearSight* interior rear view mirror uses a live video feed so you can see the path, or convoy, behind you. This is regardless of equipment or passengers in the back who may be blocking your vision.

*Optional feature. Customers who wear varifocal or bifocal lenses may have issues adjusting to the mirror's digital mode. The normal mirror mode, however, can be used at any time. This feature is not a substitute for safe and attentive driving, and driver should not assume that it will correct errors of judgment in driving. Consult the owner's manual for more details.

DRIVER ASSISTANCE

The Land Rover Defender has been built using our advanced technologies and driver assistance features. The more you use them, the more you'll find they don't take over your drive, they simply help take the stress out of it - that's got to be good. All the following are standard:

A comprehensive system of six airbags* including driver and passenger airbags, side curtain and thorax airbags to help protect occupants.

Emergency Braking** can detect an imminent forward collision with other vehicles or pedestrians and can assist to mitigate the potential for a collision.

Cruise Control and Speed Limiter† allows you to maintain the current speed of the vehicle without the need to continually use the accelerator pedal.

Lane Keep Assist† detects when your vehicle is unintentionally drifting out of lane and will apply a corrective torque to the steering wheel to encourage you to guide your vehicle back.

Driver Condition Monitor† detects when you're starting to feel drowsy and gives an early warning to take a break.

Traffic Sign Recognition† keeps you informed of speed limits†† and 'no overtaking' signs by displaying them clearly in the instrument cluster. When activated, Adaptive Speed Limiter uses recognized speed limits to adjust your vehicle's speed accordingly.

*Please remember that the safety belts in a vehicle constitute the primary protection system for driver and passengers in collisions. Airbags are not designed to deploy in all collisions. The airbag Supplemental Restraint System (SRS) is a supplement to the safety belts and is designed to work as a system with the safety belts. Although airbags provide additional protection, airbags without safety belts do not provide optimal protection in a crash. Always wear your safety belts. Children younger than 13 years old should always be properly restrained in a back seat, away from airbags. Never place an infant seat in the front seat. **Please note that if any action is taken, even minimal steering, the Emergency Braking system will assume the driver resumed control of the vehicle and the system will automatically disengage. †These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. ††Always follow local speed limits.

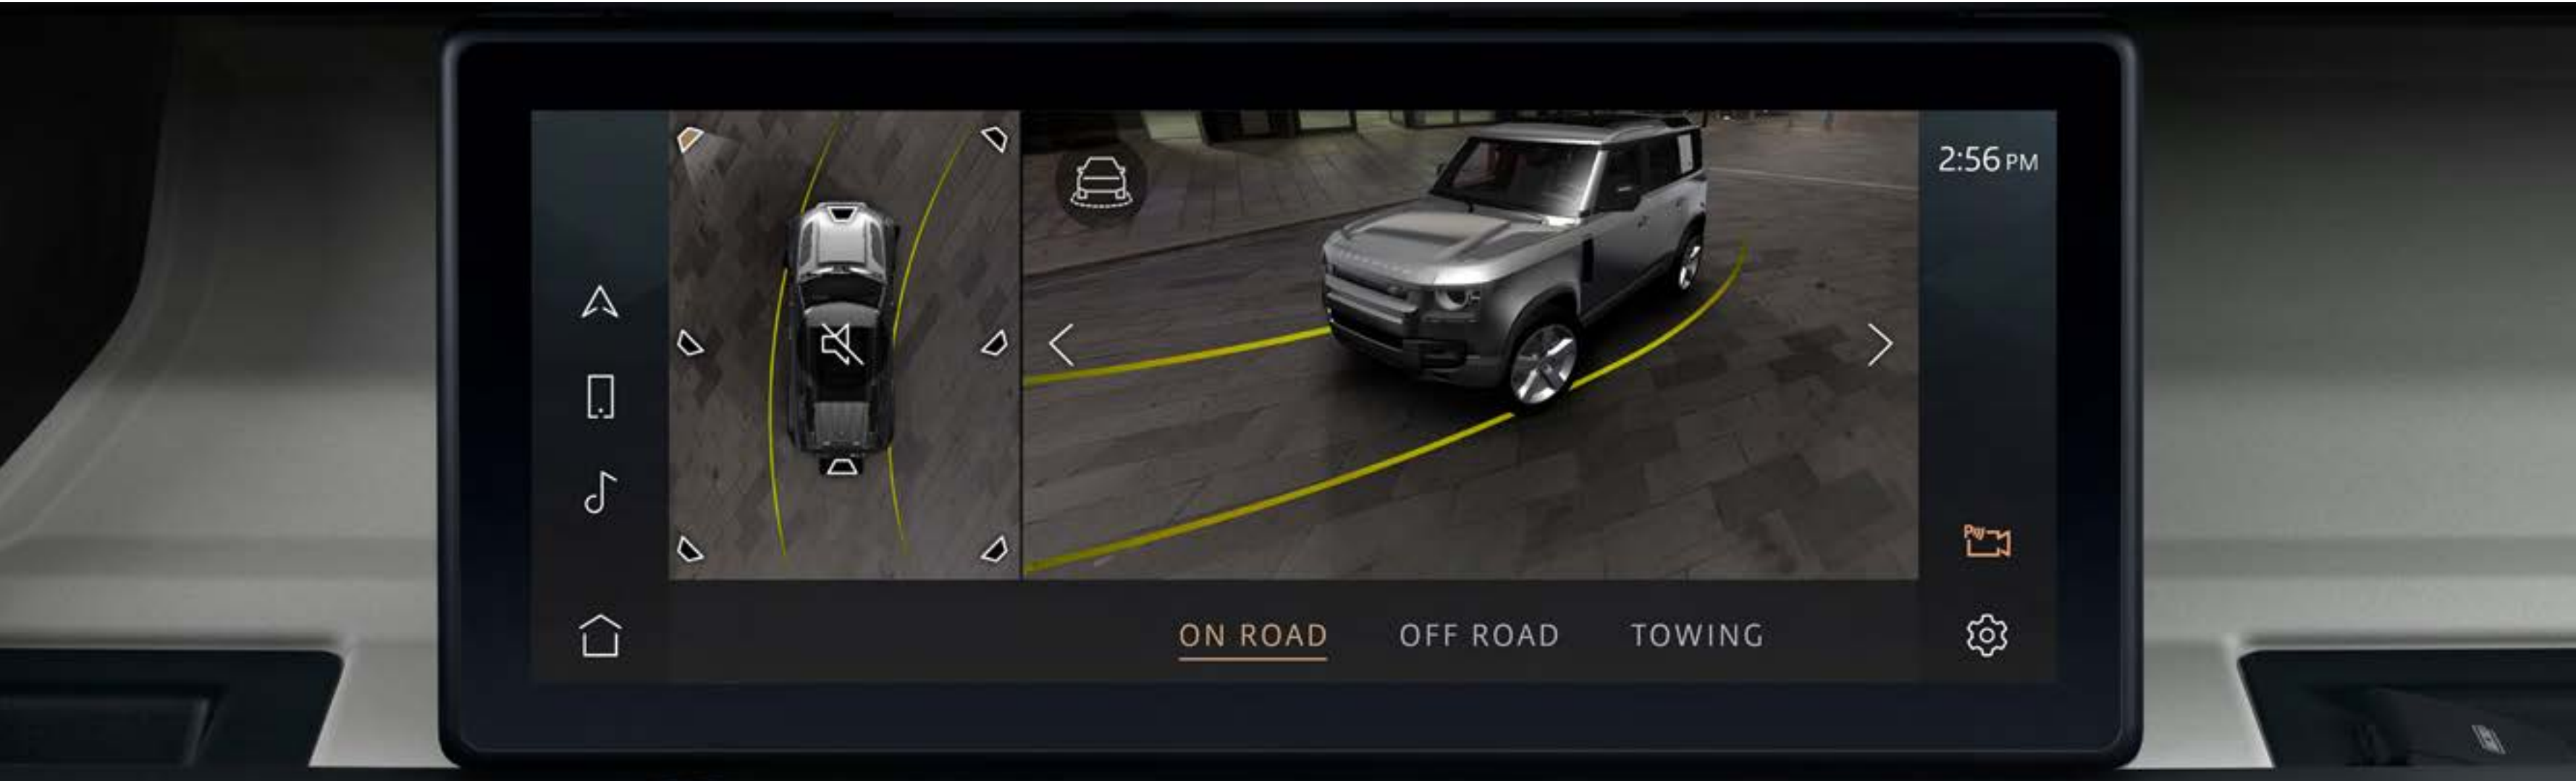

Vehicle shown is Defender 90 X-Dynamic S in Hakuba Silver.

3D SURROUND CAMERA

3D Surround Camera* helps you see more around the vehicle. 3D exterior perspectives alongside a 360° overhead view make maneuvering easier, while off-road views including the innovative ClearSight Ground View provide you with greater clarity when scaling various terrains. (3D Surround Camera also includes Wade Sensing and ClearSight Ground View).

Wade Sensing*[†] uses ultrasonic sensors in the door mirrors to provide real-time pictorial information about the water depth when wading. The system lets you know when water levels are near the 35.4" maximum wading depth.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner's manual or your local authorized Land Rover Retailer for more details. [†]Driving in floodwaters or moving in water should be avoided. Driving through water can be extremely dangerous. The Wade Sensing feature only detects depth of water ahead of around the vehicle. Therefore Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

PERSONALIZATION

BLIND SPOT ASSIST PACK

The **Blind Spot Assist Pack** helps you to identify and respond to potential collisions, so you can feel more confident on any drive.

Clear Exit Monitor* helps passengers stay alert as they exit the vehicle by providing an illuminated warning in the door if an approaching hazard is detected, such as passing vehicles and cyclists.

Blind Spot Assist* helps you to change lanes more easily, illuminating a small warning light in the wing mirror if your vehicle detects another vehicle in your blind spot. Additional steering correction encourages you to guide your vehicle away if a potential collision is detected.

Rear Traffic Monitor* warns you of vehicles, pedestrians or other hazards approaching from either side. Particularly useful when reversing out of a parking bay.

DRIVER ASSIST PACK

The **Driver Assist Pack** includes a range of features designed to make driving easier. It includes the features found in the **Blind Spot Assist Pack**, plus:

Adaptive Cruise Control* will automatically keep your vehicle an equal distance from the vehicle in front, should it slow or stop when you’re cruising or traveling in slow moving traffic. If the vehicle in front stops, your vehicle will slow down and come to a halt behind vehicles ahead.

*These systems are not a substitute for driving safely with due care and attention and will not function under all circumstances, speeds, weather and road conditions etc. Driver should not assume that these features will correct errors of judgment in driving. Please consult the owner’s manual or your local authorized Land Rover Retailer for more details.

DEFENDER 110 X

EXTERIOR COLORS

Defender does take a nod to its origins. Its colors were influenced by earth or supercontinents, including Pangea and Gondwana. There’s also Tasman Blue which is a modern reinvention of a heritage Defender color. An optional Satin Protective Film¹ can also be applied to the vehicle’s exterior. Not only does this deliver a rich, Satin finish which is environmentally sustainable, it’s also seriously tough and helps protect the paint from scratches, damage and even the sun’s UV rays.

Configure your Defender online to view the range of paint colors and finishes.

 BUILD YOUR OWN

¹Linked feature with contrast roof. ²Model dependent.

ROOF OPTIONS

When open, the folding fabric roof lets you truly feel part of your surroundings. Closed, it adds to your sense of privacy and protection from the elements. Flooding the interior with natural light, the sliding panoramic roof provides a spacious feel to the interior and a seamless connection to the world outside.

Only available with All-Season tires.

TIRES

For the toughest demands. The Defender needs tires which are just as robust. That's why Land Rover Defender is equipped with 32" diameter tires as standard. They improve ground clearance, off-road geometry and traction. An increased sidewall depth also means the vehicle is less prone to punctures and can withstand more damage.

Distance from the center indicates level of performance - 10 being best.

- All Season (Standard fitment - Band A)
- Off-Road (Option fitment - Band C)
- Professional Off-Road (Market dependent. Retailer fitment only - Band E)

ABOVE & BEYOND COLLECTION

Embodying the sheer strength of the Land Rover Defender, our Above & Beyond Collection includes clothing and technical gifts. Each one proudly represents the vehicle’s character.

Items from the Above & Beyond Collection are featured throughout this piece.

EXPLORE THE COLLECTION

Rodinia Hybrid Jacket - Ultimate versatility. Both showerproof and windproof, with quick-burst zip technology that changes the jacket into a gilet in one quick motion.

Above & Beyond Belt - Featuring the world's safest and strongest ANSI COBRA® buckle, made from heavy-grade nylon, this item is supremely capable. Tested to extremes.

Above & Beyond Pen - Superbly crafted. Underwater, upside down, through extremes of heat and cold - made with aircraft-grade aluminum, it will write wherever you want.

Reversible Base Layer - Designed to keep you warm or cool, the base layer adapts to your environment. Constructed with Merino wool and high-performance fabrics with wicking qualities.

Mirovia Seam Sealed Backpack - Resiliently protective. Its large, water-resistant roll top and heat-sealed seamed construction help defend contents from the elements.

Above & Beyond Flask - Essential for all journeys, made from double-walled stainless steel with a 16.9oz capacity. Robust construction for all environments with a paracord for ease of carrying.

PROUD PARTNERS

Tusk Trust - one of our prized partners for some 15 years - does truly remarkable work in the Borana Conservancy in Kenya. So where better to put Defender through additional tests? One of our prototypes went out there to tow heavy loads, wade through rivers and carry supplies across unforgiving terrain in a series of real-world trials at the 14,000-hectare reserve. Needless to say, the vehicle proved itself beyond any doubt.

*Always follow local speed limits.
**Max speed is 130mph. when fitted with 22" wheels.
[†]6 piston opposed monobloc caliper when fitted with 22" wheels.
^{††}14.9" when fitted with 22" wheels.
[‡]14.3" when fitted with 22" wheels.
^{‡‡}Weights reflect vehicles to standard specifications. Optional extras increase weight.
^ΔDependent on specifications and seating configuration.
^{ΔΔ}Never tow beyond a vehicle’s permissible towing capacity. Before towing, please consult the owner’s manual or your local authorized Land Rover Retailer for more detail.
[∅]Dynamic roof load allows for up to 370lbs when fitted with Off-road tyres.

DEFENDER 90 DIMENSIONS AND CAPABILITY

STANDARD RIDE HEIGHT

With roof antenna (Coil suspension / Air suspension)
77.7 inches / 77.5 inches

HEADROOM

Maximum front/rear headroom:
With standard roof 40.5 inches / 38.5 inches
With panoramic roof 40.5 inches / 37.2 inches
With folding fabric roof 40.5 inches / 37.2 inches

LEGROOM

Maximum front legroom 39 inches
Maximum rear legroom second row 36.5 inches

LOADSPACE CAPACITY

Height 35.5 inches. Width 46.5 inches
Loadspace width between arches 44.2 inches
Maximum cargo space volume
behind first row 58.3 cu.ft
behind second row 15.6 cu.ft

OBSTACLE CLEARANCE

Off-road (Coil suspension / Air suspension) 8.8 inches / 11.4 inches*
Standard (Coil suspension / Air suspension) 8.8 inches / 8.5 inches

TURNING CIRCLE

Curb-to-curb 37.1 ft
Wall-to-wall 39.4 ft
Turns lock-to-lock 2.7

WADING DEPTH**

Maximum wading depth (Coil suspension / Air suspension)
33.4 inches / 35.4 inches

*In off-road height and tow eye cover removed. **67.0 inches with 22" wheels. †66.9 inches with 22" wheels. ††66.9 inches on 20" wheels, 66.8 inches on 22" wheels. ‡67.0 inches on 20" wheels, 66.8 inches on 22" wheels. ††Driving in floodwaters or moving water should be avoided. Driving through water can be extremely dangerous. The Wade Sensing feature only detects depth of water the vehicle is in at the present time and not of water ahead or around the vehicle. Therefore, Wade Sensing cannot predict whether it is safe to proceed and cannot detect steep drops in grade around the vehicle. The driver is responsible for determining the conditions of the route being driven.

Fitting of side tubes or side steps may affect the off-road capability of the vehicle, Challenging off-road driving requires full training and experience.

Width 79 inches mirrors folded
Width 82.8 inches mirrors out

Front wheel track
Air suspension 67.1 inches**
Coil suspension 67.0 inches†

Rear wheel track
Air suspension 67.0 inches††
Coil suspension 66.9 inches‡

Length behind
second row 18.1 inches

Loadspace
