THE ART OF PERFORMANCE

Every day we push performance to its limit. Our performance. Our cars' performance.
We innovate, we engineer, we design. We master rules and then break them.
Only to push further. Past the limits of convention. This is when performance becomes art.

Jaguar. The Art of Performance.

NEW JAGUAR F-PACE SVR

Meet Jaguar's ultimate performance SUV.

WILL VARY BETWEEN MARKETS AND SHOULD BE VERIFIED WITH YOUR LOCAL JAGUAR RETAILER

PERFORMANCE SHAPED BY SPECIAL FORCES

The experts at Special Vehicle Operations (SVO) have harnessed the forces of gravity, drag, friction, heat and energy in the new F-PACE SVR. Hand-finished at the innovative SVO Technical Centre in Warwickshire, England, you can now experience the power of SVO in a Jaguar SUV for the first time. Their dedicated team's technical expertise takes precision engineering to new heights, while offering the opportunity for more individuality, choice and personalisation.

VEHICLE SHOWN: F-PACE SVR IN INDUS SILVER WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

JAGUAR'S ULTIMATE PERFORMANCE SUV

F-PACE SVR is the most significant evolution yet of the award-winning F-PACE. It's an SUV with the DNA of a sports car. A sports car with all the practicality of an SUV.

SVO's highly skilled engineers and aerodynamics experts have analysed and tested every force, acting on every part of the vehicle, in every way possible. Then, armed with this information, they've created something truly special.

Knowledge is more than power, it's also essential in tuning aerodynamics. By shaping the forces required to deliver breathtaking performance, Special Vehicle Operations has created a full size SUV that can roar to 100km/h in a thrilling 4.3 seconds.

VEHICLE SHOWN: F-PACE SVR IN INDUS SILVER WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

DESIGNED FOR UNCOMPROMISED PERFORMANCE

No part of F-PACE SVR exists for aesthetics alone. A revised front end with enlarged air intakes and optimally positioned bonnet vents are there to improve airflow and cooling. They also give F-PACE SVR an aggressive stance and hint at the enormous power within.

Adaptive LED headlights do more than simply add to its commanding road presence. They produce a quality of light that is closer to daylight conditions, so driving at night becomes less tiring.

The swooping roofline smoothes airflow over the car, resulting in a 0.37 drag coefficient. New 395mm brake discs with red 4-piston front brake calipers deliver outstanding braking performance. Bolder wheel arches house 21" or optional 22" Forged alloy wheels. For increased grip and improved cornering capability, 295mm wide rear tyres further underscore F-PACE SVR's sporting prowess.

A new spoiler extends the roofline – offering substantial lift reduction and highlighting F-PACE SVR's sports-car pedigree. For eye-catching styling, and performance you can hear, the F-TYPE inspired Switchable Active Sports Exhaust system features quad tailpipes in highly polished aluminium. Choose from a range of striking exterior colours for F-PACE SVR including Indus Silver and Ultra Blue.

VEHICLE SHOWN: F-PACE SVR IN INDUS SILVER WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

PLACING THE DRIVER, AND PASSENGERS, CENTRE STAGE

Whether you're sitting in the front or the back – you connect with F-PACE SVR from the moment you slide into the form-hugging Performance seats. The 14-way slim line front seats with memory, climate control and SVR embossing feature a lozenge pattern in premium perforated leather. Adding to the sports car feel, side bolsters hold you snugly in place when cornering. In the rear, matching perforated leather Performance seats offer even more lateral support than in the standard F-PACE – especially during enthusiastic driving.

F-PACE SVR's Touch Pro system features a 10" Touchscreen which responds just like a smartphone or tablet, providing multi-touch gestures such as pinch to zoom and swipe. The stylish infinity rear view mirror has a frameless design. Simple, clear and easy to read, the high-definition Interactive Driver Display delivers information where and when you need it.

The 3-spoke sports steering wheel is wrapped in leather with a contrasting baseball stitch and SVR badging. The SportShift Selector, a detail inspired by F-TYPE, is simple and intuitive to use. For fast, manual changes, without the need for the driver to take their hands off the wheel – gear changes can also be made using aluminium gearshift paddles. For a strikingly different look, choose from four high impact interior colour combinations to create your perfect F-PACE SVR.

All in car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

INTERIOR SHOWN: F-PACE SVR WITH LIGHT OYSTER PERFORATED WINDSOR LEATHER SEATS WITH EBONY/LIGHT OYSTER INTERIOR (MARKET DEPENDENT)

THE POWER TO EXCITE

Here are some figures to set your pulse racing, before you even get in the car. F-PACE SVR's 5.0 litre V8 Supercharged Petrol engine delivers an astonishing 550PS and 680Nm of torque. It accelerates from 0-100km/h in just 4.3 seconds, on its way to a top speed of 238km/h.

Jaguar's 8-speed Quickshift Automatic Transmission has been specifically tuned by Special Vehicle Operations, this system combines precise shifting with an exceptionally rapid response. Eight closely spaced ratios provide strong acceleration, with each shift completed in just 200 milliseconds.

Throttle response has been optimised for improved feedback, while a final drive ratio delivers a precise driving experience. Jaguar's advanced torque on demand All Wheel Drive system dispatches torque to the wheels that have most traction – delivering maximum grip and control for confident handling in all weathers, on all surfaces.

The Switchable Active Sports Exhaust system reacts to throttle position, speed and engine revs by opening a set of active valves. This allows exhaust gases to take a more direct route through the rear silencer, producing a much richer, more exhilarating sound.

Torque Vectoring by Braking applies brake pressure to slow the inside front or inside rear wheels independently helping to prevent understeer and stay on the true line of travel

Possible understeer without Torque Vectoring by Braking technology

A THRILLING DRIVE WITHOUT COMPROMISE

HIGH PERFORMANCE BRAKING SYSTEM

Instantly recognisable with striking red calipers, F-PACE SVR's High Performance Braking System, offers a fast, precise response – especially when repeatedly braking from high speed, due to its excellent fade resistance. The system features 395mm discs with 4-piston calipers at the front.

F-PACE SVR's unique Stability Control System (SCS) interacts with the braking system to help stabilise the car in hazardous road scenarios. This system uses sensors to continuously monitor the direction, speed and lateral acceleration of the car.

TORQUE VECTORING

F-PACE SVR's Torque Vectoring by Braking (TVBB) maximises capability through even the tightest corners. This technology provides controlled independent braking on the individual inside front and rear wheels to add to the turning forces acting on the car.

In most conditions more braking pressure is applied to the rear inside wheel, as this supports the most increased cornering capability, while the front inside wheel is braked with slightly reduced pressure. The result is reduced understeer for sharper turning and more consistent road holding.

ELECTRONIC ACTIVE DIFFERENTIAL

F-PACE SVR features a new Electronic Active Differential system that works together with the Torque Vectoring by Braking (TVBB) system. A second multi-plate wet clutch between the rear wheels can lock almost instantly to provide full engine output torque to both wheels. This can be especially useful to deliver effortless capability in low grip conditions such as patchy ice or wet grass. It also provides maximum traction when exiting a corner, as when the inside wheel loses traction due to weight transfer, the Electronic Active Differential increases torque to the outside wheel.

ALL WHEEL DRIVE

Special Vehicle Operations has tuned F-PACE SVR's All Wheel Drive system to deliver remarkable performance and handling. The system uses a torque biased differential that substantially improves traction.

In normal driving conditions, virtually all torque is distributed to the rear wheels providing signature Jaguar rear wheel drive performance. Where road conditions are changeable, over 90 percent of torque can be intelligently distributed from the rear wheels to the front to optimise traction in all conditions. On slippery surfaces, such as grass and mud, torque can be balanced 50:50 between the front and rear wheels to maximise traction.

CHASSIS AND SUSPENSION

F-PACE SVR's strong, stiff body structure is inherently stable which enables precise, agile handling and allows the uprated suspension system to deliver better driver connection with the road. SVO has optimised the damping set up to provide the optimum partnership between dynamics and refinement. They've also revised the damper control system, specifically tuned the shock absorbers and added new stiffer front and rear springs and stiffer suspension link bushes for the perfect combination of control, agility and feedback.

At the front, its aluminium double wishbone suspension is modelled closely on F-TYPE, for precise handling and control, while modified anti-roll bars greatly reduce the vehicle's body roll during fast cornering or over challenging road surfaces. An Integral Link suspension system at the rear provides stiffness to support handling, improve ride quality even further and to extend F-PACE SVR's breadth of dynamic capability.

DYNAMIC MODE

Engage Dynamic Mode and an SVR graphic appears on the Interactive Driver Display – a symbol of ultimate sports performance. The throttle response is sharpened, the dampers are stiffened and steering weighting is increased. Dynamic Mode also changes the exhaust mapping – allowing the engine to breathe freely, for a deep, dramatic sound.

OUTSTANDING PERFORMANCE WITH OPTIMUM EFFICIENCY

F-PACE SVR's unique exterior design maximises cooling and enhances aerodynamic performance. Air is efficiently directed over, under and around the car – reducing lift, increasing tyre traction, feeding the engine air intakes and cooling the 395mm brake discs. The result is improved handling, higher cornering g-force and increased high-speed stability.

UNDERFLOOR AND REAR DIFFUSER

The smooth rear underfloor reduces drag, while the rear diffuser works to manage airflow, adding to F-PACE SVR's high-speed stability.

FRONT INTAKES AND VALANCE

New large bumper intakes maximise airflow, cooling both the engine and brakes for improved performance. A new front valance manages the airflow, to help reduce drag and aid cooling.

BONNET VENTS

New bonnet vents allow a cleaner exit of the air passing through the radiator. They also help to maintain airflow through the engine bay, increasing cooling.

SIDE VENTS

F-PACE SVR's unique front fender features functional side vents. Pushing air around the side of the car, these vents help to reduce air pressure in the wheel arch and minimise front-end lift. They also improve wheel arch ventilation to optimise brake cooling.

SIDE CLADDING

The side cladding and side sills also have an aerodynamic benefit – each side sill features three sharp slits that extract air from behind the wheels.

SPOILER

The new spoiler is integral to F-PACE SVR's enhanced performance and helps lower the drag coefficient to 0.37. It works to reduce lift and increase friction between the tyres and the road – improving downforce for greater grip.

VEHICLE SHOWN: F-PACE SVR IN INDUS SILVER WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

THE ART OF PERSONALISATION

The state-of-the-art SVO paint facility is equipped with the very latest in body paint technology.

As one of the world's most advanced and environmentally efficient paint shops, it offers industry-leading standards of quality, precision and choice. Myriad paint finishes, including Ultra Metallic which is also available in Gloss or Satin Matte, providing even greater levels of individuality. SVO also provides a bespoke colour-matching service, so customers can colour match from more than 15,000 base body colours.

To find out more about personalising your F-PACE SVR, please visit your local Jaguar Retailer.

VEHICLE SHOWN: F-PACE SVR IN ULTRA BLUE WITH OPTIONAL FEATURES FITTED
(MARKET DEPENDENT)

F-PACE SVR UNIQUE FEATURES

BESPOKE AERODYNAMICS

Developed specifically for F-PACE SVR, entirely new aerodynamics include a new front bumper, side vents, side cladding and a wider rear spoiler. It now offers the downforce and aerodynamic performance necessary for an SUV to reach a top speed of 283km/h – and looks sensational doing it.

UPDATED SPORTS SUSPENSION

F-PACE SVR's updated suspension system provides the optimum partnership between dynamics and refinement.

SPORTS EXHAUST

For eye-catching styling, and performance you can hear, the F-TYPE inspired Switchable Active Sports Exhaust system features quad tailpipes in highly polished aluminium.

PAINT OPTIONS

F-PACE SVR is offered in 7 standard colours. To make the car truly unique – a genuine one-off – you can also colour match from more than 15,000 body and accent colours with SVO's bespoke colour-matching service.

SUPERCHARGED PERFORMANCE

F-PACE SVR features Jaguar's 5.0 litre Supercharged V8 engine. Maximum power is 550PS and maximum torque is an astonishing 680Nm – making F-PACE SVR the most powerful SUV Jaguar has ever made.

BESPOKE COOLING

New large bumper intakes and optimally positioned new bonnet vents maximise airflow – cooling both the engine and brakes for improved performance.

EXCLUSIVE INTERIOR

The 3-spoke sports steering wheel features SVR badging. A detail inspired by F-TYPE, the SportShift Selector is simple and intuitive to use. Front and rear Performance seats, with SVR embossing, grip driver and passengers tight.

UNIQUE WHEELS AND TYRES

F-PACE SVR is fitted with 21" or optional 22" Forged alloy wheels. These split-spoke wheels are equipped with wide 295mm rear tyres for increased grip, improved cornering capability and added sporting character.

HIGH PERFORMANCE BRAKES

F-PACE SVR's High Performance Braking System, offers a fast, precise response – especially when repeatedly braking from high speed, due to excellent fade resistance.

INFOTAINMENT

Delivering a wealth of information and entertainment, every F-PACE SVR is equipped with our InControl infotainment system, Touch Pro. It features intuitive and advanced integrated technologies to ensure everyone can make the most of their journey.

10" TOUCH PRO

The standard 10" Touchscreen at the heart of the centre console supports tap, swipe and pinch to zoom gestures and delivers our richest ever audio-visual entertainment. To enhance the in-car experience, Touch Pro offers customisable homescreens and fast response times as well as voice control. Multi-tasking is also made easy thanks to the Interactive Side Panel.

INTERACTIVE DRIVER DISPLAY

The standard 12.3" high-definition Interactive Driver Display can receive and project a vast amount of driving information, entertainment and active safety data including navigation, phone and media. Its high resolution ensures the utmost clarity and its refined processing engine delivers smooth moving pin sharp graphics. To help you find your way more easily, Navigation Pro enables you to display full screen navigation with 3D mapping.

HEAD-UP DISPLAY*

To help reduce distraction or the need for you to take your eyes off the road, Head-up Display* is an option that presents key vehicle data such as your speed, gear position and navigation directions on the windscreen. It features crystal clear full-colour graphics in high resolution, enabling you to see all driver inputs and information with ease. It can display important information from the Touch Pro Touchscreen and your phone. The feature can be turned on and off dependent on driver preference.

*Requires solar attenuating windscreen to be fitted.

INTERIOR SHOWN LEFT: F-PACE SVR WITH LIGHT OYSTER PERFORATED WINDSOR LEATHER SEATS WITH EBONY/LIGHT OYSTER INTERIOR (MARKET DEPENDENT)

AUDIO

A vehicle's cabin is the ideal place within which to experience your personal choice of music and Jaguar F-PACE SVR has the option of two different audio systems to bring your music to life:

MERIDIAN™ SOUND SYSTEM*

Great definition, crystal clear highs and full, deep bass – delivered through the careful arrangement of 10 speakers and a dual channel subwoofer.

MERIDIAN SURROUND SOUND SYSTEM

All the fullness and clarity of a live performance delivered through an arrangement of 16 front, side and rear speakers and a dual channel subwoofer – seamlessly brought together using Trifield™ technology. Exclusive to Meridian, Trifield perfectly blends the centre and surround channels with left and right channels ensuring an optimum, consistent sound experience for each passenger.

DIGITAL AUDIO BROADCAST (DAB) RADIO

The option of DAB radio technology offers improved sound quality, a wide choice of stations and live text information about the station, show and song you are listening to.

*Standard on F-PACE SVR.

Image is representative of Meridian Surround Sound System.

MERIDIAN

Formed in 1977 in Cambridgeshire, England, Jaguar’s audio partner Meridian has pioneered many firsts including active speakers and the world’s first digital surround sound processor. Meridian’s audio technology input has helped ensure that Jaguar F-PACE SVR is the most superb space within which to experience sound. Meridian Cabin Correction technology was utilised to analyse cabin shape, acoustics and resonance characteristics in order to help remove unwanted sounds. The advanced algorithm ensures that the rhythm, punch and timing of any piece of music are heard precisely how the artist intended, providing a consistently exceptional quality audio experience for all passengers in the vehicle.

	UNIQUE MERIDIAN TECHNOLOGY	SPEAKERS + SUBWOOFERS	WATTS
MERIDIAN™ SOUND	  	10+1	380
MERIDIAN™ SURROUND SOUND	   	16+1	825

DIGITAL SIGNAL PROCESSING

Brings all elements of the audio system together as one, for performance that would otherwise require significantly larger speakers.

MERIDIAN CABIN CORRECTION

The advanced algorithm of Meridian’s Cabin Correction tailors the sound experience to the precise acoustics of F-PACE SVR’s interior.

MERIDIAN DIGITAL DITHER SHAPING

To maintain the quality of musical recordings, they are converted into a common digital format. Meridian Digital Dither Shaping ensures that digital signal conversions are made smoothly and seamlessly, preserving the finest details of the audio performance. The result is authentic musical conversion, evoking the emotions of the original recording.

TRIFIELD

Exclusive to Meridian, Trifield blends the centre and surround channels seamlessly with left and right channels, delivering a consistent, concert-like experience for all occupants.

Meridian is a registered trademark of Meridian Audio Ltd.
Trifield and the "three fields" device is a trademark of Trifield Productions Ltd.
Features and their availability may differ by vehicle specification and market.

CONNECTIVITY

InControl is Jaguar's suite of standard and optional features that connects you to your vehicle and links you seamlessly, and securely, with the outside world. There are a range of packs and options available to choose from. With a selection of apps, even when you're away from your car, some of the InControl features stay with you, making sure the Jaguar experience is more enjoyable than ever.

STANDARD FEATURES

PINPOINT TOUCH CONTROL

Pinpoint touch control allows you to interact with information swiftly. The Touchscreen responds in the same manner as a smartphone or tablet computer, providing multi-touch gestures such as pinch to zoom and swipe.

PERSONALISED HOMEPAGE

You can set up your homescreens the way you want them. With over 60 shortcuts and widgets, you can customise your system around the features you use most.

INTERACTIVE SIDE PANEL

A choice of side panels means you can multi-task. For example, your main screen area can be used for navigation, while the side panel provides phone controls. Simply swipe up and down to switch between multiple panels.

MULTIMEDIA

Enjoy a range of multimedia features on the Touchscreen. Connect your device and see details of playlists and music displayed by artist, album and genre.

ENHANCED PHONE INTERFACE

Making it easier and safer, you can call a favourite contact with a single touch. Additional functionality includes direct access to voicemail, conference calling and homescreen integration.

VOICE RECOGNITION SYSTEM

So you can complete tasks without taking your eyes off the road, F-PACE SVR offers intelligent voice recognition. For example, 'Tune to 97.9' or 'Call home'.

Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. InControl features, options and their availability remain market dependent – check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations.

InControl Apps and Remote App will need to be downloaded from the Apple/Play Store.

All in car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

PROTECT

Jaguar Optimised Assistance – You can make a direct call to the Jaguar Assistance team by pressing the button on the overhead console.

SOS Emergency Call – In a more serious incident, SOS Emergency Call will automatically connect you to the emergency response team who will notify the emergency services to your location.

Remote Essentials – Provides information on your vehicle and enables you to interact with it remotely. Compatible with most smartphones, Android Wear™ or the Apple Watch®, this service includes:

- **Journey Tracking** – This opt-in feature can automatically record your journey history including your route and mileage statistics. This information can be exported by email to use for expense reporting and can be imported to a spreadsheet.
- **Vehicle Status Check** – Check current fuel level and range, and status of door and window position and locks. See the last parked location of the vehicle and find your way back to it with on-foot directions.

REMOTE PREMIUM¹

Remote Premium provides the following enhancements to the Remote Essentials smartphone app:

- **Remote Lock/Unlock** – Lock or unlock your doors remotely with the click of a button. Simply press the 'lock' button on the Vehicle Security screen of the Remote smartphone app to single lock the doors, arm the alarm, fold in the wing mirrors and close the windows². Press the 'unlock' button to unfold the wing mirrors, turn on the dipped headlights and cause the hazard lights to flash twice.
- **Beep/Flash** – This feature turns on your Jaguar's hazard lights, dipped headlights and sounds an audible alert to help you locate your vehicle in a crowded car park.

¹Remote Premium contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. Remote services available are market dependent. ²Availability is market dependent.

NAVIGATION PRO

Navigation Pro allows you to save your favourite places, use pinch to zoom gestures for simple map exploration and display a choice of either 2D or 3D crystal clear map graphics.

INCONTROL APPS

Jaguar InControl Apps technology allows vehicle-optimised apps on your Android™ or Apple® smartphone to be controlled through the vehicle's Touchscreen, including contacts, calendar and music player via a USB cable. You can also download third-party apps offering a range of services.

- **Spotify¹** – Access a library of more than 30 million songs with this seamlessly integrated app. Featuring all the same intuitive functionality as the Spotify smartphone app, you can search songs, stations and recommendations, create playlists and access your music in offline mode. Simply log in using your existing Spotify Free or Spotify Premium account.
- **Tile²** – Helps you find lost or misplaced items in seconds. Attach a tiny Bluetooth tracker Tile to your keys, wallet or bag. The easy-to-use Tile app can then help you find these items should they be misplaced. The app is accessible any time through your vehicle's Touchscreen, allowing you to make sure you have everything you need with you, before you set off on your journey.

4G WI-FI

The 4G Wi-Fi Hotspot provides in-car access to the Internet, enabling up to eight wireless devices to be used simultaneously in the car. Passengers can connect through the vehicle's wireless network to surf, work, update social media and stay entertained throughout the journey.

PRO SERVICES

- **Real Time Traffic Information** – Uses live traffic data feeds to give you the most accurate picture of what the traffic is like on the way to your destination.
- **One-box Search** – Wherever you are, you can search the surrounding area for places of interest. The system can access expert destination information, travel tips and inspiration as well as online travel reviews of the local area.
- **Planning Routes and Door-to-Door Routing** – Before setting off, use the Route Planner app or online portal to search, save locations or set your destination. The app uses the Cloud to send your destination automatically to your vehicle's navigation screen. Once you've parked, the Route Planner app will guide you to your destination – a true door-to-door experience which includes public transport options.
- **Share ETA** – You can share your estimated time of arrival so your selected contact(s) will know exactly when you will arrive, as calculated by the navigation guidance system. If you're running late, Share ETA can then send automatic updates via text messages or email, without any further action from you.
- **Satellite View** – When you want to get the context of your surroundings from overhead, simply switch to satellite view.
- **Commute Mode** – Allows the system to learn your commutes and automatically advises you of the expected journey time based on live and historical traffic movements without you having to input a destination. The system learns the routes you take for a given destination and then advises which of those is the quickest. The feature can be turned on and off dependent on driver preference.
- **Parking Service** – As you approach your destination, you can see where parking is available. Simply tap on your preferred car park and the navigation system updates to direct you to it.
- **Online Routing** – While you're on your way to a destination the system monitors live traffic conditions and takes into account typical traffic patterns for that time of day, keeping you on the optimum route.
- **Safety Cameras** – Alerts you to the location of accident black spots monitored by safety cameras.
- **Fuel Prices** – When you're going to fill up, the Fuel Price service not only finds filling stations along your route, it also enables you to compare fuel prices so you can keep your costs down.

Remote contains subscription services that can be extended after the initial term advised by your Jaguar Retailer. InControl features, options and their availability remain market dependent – check with your Jaguar Retailer for local market availability and full terms. Information and images displayed in relation to the InControl technology, including screens or sequences, are subject to software updates, version control and other system/visual changes depending on options selected. Mobile network connectivity cannot be guaranteed in all locations.

InControl Apps will need to be downloaded from the Apple®/Play Store.

All in car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

OPTIONAL FEATURES

SECURE TRACKER³

Uses tracking technology to alert you to an attempted theft, and signals your vehicle's location to the relevant authorities, for a timely recovery.

¹Please check App Store and Google Play for availability.

²Bluetooth tracker tiles must be purchased separately. 2016 Tile Inc. and the Tile design are trademarks of Tile, Inc.

³Secure Tracker will require further subscription after the initial term as advised by your Jaguar Retailer.

DRIVER ASSISTANCE

MAKING DRIVING EASIER AND SAFER

From negotiating city traffic or the motorway, to providing additional safety for you and your passengers, there's a wealth of innovative technologies available; either as standard, optional or as part of an optional pack. Whichever you choose, you'll find every single feature has been designed and engineered to heighten your enjoyment of the vehicle.

STANDARD FEATURES

Emergency Braking can help to prevent collisions with other vehicles, as well as, pedestrians. If a potential frontal collision is detected, a warning is displayed giving you time to take action. A camera at the front of the vehicle monitors at speeds from 5km/h to 80km/h for frontal collisions and 5km/h to 60km/h for pedestrians. If a collision is still anticipated and you have taken no action, this system will apply the brakes to help reduce the severity of the possible impact.

Cruise Control and Speed Limiter allows the driver to maintain the current speed of the vehicle without the need for continued use of the accelerator pedal, helping to reduce driver fatigue. In addition, the Speed Limiter will also allow the driver to pre-set a maximum specified speed which the vehicle will not exceed. Both functions can be easily turned on or off by the driver as desired.

Driver Condition Monitor detects if you're starting to feel drowsy by monitoring steering inputs, brake and throttle pedal activity to give you an early warning when you need to take a break.

Lane Keep Assist detects when your vehicle is unintentionally drifting out of your lane, and gently steers you back.

Rear Camera provides improved visibility when reversing. Static lines representing the vehicle's outer perimeter and predicted path are superimposed on the rearward image displayed on your Touchscreen.

360° Parking Aid gives you complete confidence when manoeuvring in tight spaces. Sensors located around the car are automatically triggered when Reverse is selected, or can be manually activated, with a graphic appearing on the Touchscreen showing an overhead view of the vehicle. As you park, the Touchscreen display and audio feedback indicates how close you are to obstacles.

Traffic Sign Recognition keeps you informed and aware on the road, by displaying speed limits and no overtaking signs in the instrument cluster, where they can easily be seen. Adaptive Speed Limiter uses Traffic Sign Recognition information to adjust your vehicle's speed accordingly by using the cruise control system.

OPTIONAL FEATURE

360° Surround Camera* uses four digital cameras discretely placed around the vehicle, providing a 360° overhead view on the Touchscreen. With the capacity to display several different views at the same time, this helps with various manoeuvres from parking by a kerb, to getting in and out of tight spaces and junctions.

*Only available when optional auto-dimming, power fold door mirrors are fitted.

All in-car features should be used by drivers only when safe for them to do so. Drivers must ensure they are in full control of the vehicle at all times.

VEHICLE SHOWN: S IN INDUS SILVER WITH OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

Park Assist

Adaptive Cruise Control with Stop & Go

OPTIONAL PACKS

PARK PACK

Park Pack enables you to park and manoeuvre safely and securely in and out of tight spaces and into traffic that is obscured by buildings or other vehicles. It features:

Park Assist makes parallel and perpendicular parking easier than ever by steering your vehicle into a suitable space. Selecting either Drive or Reverse, you only have to control the vehicle's speed with the brake and accelerator pedals. Steering will be done automatically by the car. Graphics and notifications guide you through the manoeuvres. Park Assist will also steer you out of a space, taking all of the stress out of parking.

Rear Traffic Monitor is particularly useful when reversing out of a parking bay, the system warns you of vehicles, pedestrians or other hazards, approaching from either side of your vehicle. It will alert you with both audio and visual warnings so you know what's behind you even when the view is obstructed.

DRIVE PACK*

Making every journey safer and more relaxing. The Drive Pack includes:

Adaptive Cruise Control with Stop & Go will keep your vehicle a safe distance from the one in front should it slow or stop when you're cruising on the motorway or travelling in slow-moving traffic. Should the vehicle in front stop completely, your vehicle will come to a smooth halt. In stop-start traffic, Adaptive Cruise Control will automatically resume following the car in front. The system can be activated from 20km/h and once activated will operate between 0-200km/h.

High-speed Emergency Braking detects when a potential frontal collision with another vehicle may occur and displays a forward alert to warn the driver to brake. If the driver doesn't react, the car will deploy the brakes in order to reduce the severity of the possible impact. High-speed Emergency Braking is ready and active from 10km/h to 160km/h.

Blind Spot Assist can help you prevent collisions. If your vehicle detects another car in your blind spot when you begin to change lanes, a small warning light illuminates in the corresponding wing mirror and a steering torque encourages you to guide your vehicle away from the approaching vehicle.

OPTIONAL PACKS

DRIVER ASSIST PACK

The optional Driver Assist Pack offers a wide range of driver aids including the features found in both the Park Pack and Drive Pack (see page 33) together with 360° Surround Camera*. It also includes new Adaptive Cruise Control with Steering Assist which centres the vehicle in lane and maintains a set distance from vehicles ahead, making driving even easier and more comfortable.

*Available as an optional feature. Only available when optional auto-dimming, power fold door mirrors are fitted.

Adaptive Cruise Control with Steering Assist can be activated from 20km/h and once activated will operate between 0-180km/h. It begins functioning when you depress the "Set" cruise button. A camera and radar then work together to track vehicles and lanes ahead to maintain a central position for your vehicle, and moderate its speed according to the behaviour of the traffic ahead of you. If the vehicle ahead slows, even to a standstill – the feature automatically slows your vehicle, bringing it to a stop where necessary and automatically resuming if stationary for less than three seconds, to maintain a relaxed and composed drive in busy traffic situations.

Adaptive Cruise Control with Steering Assist works with you; as you keep your hands on the wheel anticipating the road ahead, the system assists with steering, braking and acceleration. Should you remove your hands from the wheel, the vehicle will provide a warning. If the warning is not heeded then the Steering Assist is deactivated but the Adaptive Cruise Control remains active.

VEHICLE SHOWN: F-PACE R-SPORT IN FIRENZE RED, FEATURING EBONY/PIMENTO PERFORATED GRAINED LEATHER SPORTS SEATS WITH PIMENTO CONTRAST STITCH.
OPTIONAL FEATURES FITTED (MARKET DEPENDENT)

F-PACE SVR rear Performance seats

THE ULTIMATE PRACTICAL SPORTS CAR

F-PACE SVR is an uncompromised performance car that offers practicality and versatility. Its generous legroom means that even the tallest drivers have plenty of space. In the back, there's space for three adults to sit comfortably side by side. Rear leg and knee room are 944mm and 65mm respectively.

Luggage capacity is a class-leading 650 litres^{1,2}, substantially greater than its nearest competitor. The space is made even more versatile by the rear seats' 40:20:40 configuration. They can be folded completely, or folded individually, in a variety of combinations, to accommodate both passengers and awkward items such as skis. With the rear seats folded flat, F-PACE SVR's total loadspace is an impressive 1.740 litres.

Activity Key

ACTIVITY KEY

With the optional Activity Key you can enjoy your favourite activities, and keep your car key securely in the car. For extra convenience, you can strap the Activity Key to your wrist. The wristband is robust and fully waterproof, allowing you to take part in a range of activities from cycling to swimming. Simply place your Activity Key against the sensor on the tailgate⁴ to lock or unlock the car and deactivate or reactivate the conventional key fob.

¹With Tyre Repair System. 508 litres with space saver spare wheel. 463 litres with full size spare wheel. ²Below the parcel shelf.

³Boot configuration and total loadspace will vary depending if full size spare or space saver spare wheel is fitted. ⁴Please consult your local Jaguar Retailer for more information.

CHOOSE YOUR OPTIONS & JAGUAR GEAR

You can truly bespoke your F-PACE SVR with options chosen at the point of order and the Jaguar Gear range of accessories that can be fitted before or after delivery by your Jaguar Retailer.

OPTIONS (FACTORY FIT)

Illuminated Metal Treadplates with Jaguar Script

Illuminated aluminium treadplates, featuring Jaguar script are available on driver and front passenger sides.

Configurable Ambient Interior Lighting

This feature allows you to vary the colour and shade, changing the ambience of the cabin to suit your mood. There are ten colours in total.

Smoker's Pack

Add a lighter socket and ashtray to the centre console.

Cabin Air Ionisation

This technology improves the air quality within the vehicle cabin, removes allergens, any viruses, airborne bacteria and associated odours. It does so by ionising particles in the air, making them attract to surfaces and thus helping to cleanse the air.

Air Quality Sensor¹

This extra climate control option monitors the air quality within the cabin and automatically recirculates it as necessary.

Head-up Display²

See page 25.

360° Surround Camera³

See page 32.

Privacy Glass

Darkened privacy glass lets rear seat passengers enjoy greater privacy and helps reduce glare from the sun.

Full Length Roof Rails

Factory-fit roof rails facilitate easy fitment of cross bars for truly stable roof carrying. Pre-set positioning points ensure cross bars are fixed in optimum position for weight distribution and dynamics. Available in Gloss Black finish.

Secure Tracker

See page 31.

JAGUAR GEAR ACCESSORIES

Electrically Deployable Side Steps

These smart, practical steps make it easier to get in and out of the vehicle and improve access to the roof. Neatly stowed under the sills, the side steps automatically deploy as soon as the door is opened. They stow automatically when the door is closed.

Luggage Compartment Rubber Mat

This premium mat is tailored specifically to protect the luggage compartment. Light and durable, it is easily removable for cleaning.

Luggage Compartment Rubber Mat Extension

Offered for fitment in conjunction with rubber luggage compartment mat this mat extension provides protection to the back of the rear seats when folded down.

Luggage Compartment Luxury Carpet Mat

Luxurious soft luggage mat in Jet Black with the Jaguar logo. Deep premium 2,050g/m² pile with Nubuck edging and Dove contrast stitch.

Locking Wheel Nuts - Black

Protect your wheels with custom designed high-security Black locking wheel nuts.

Locking Wheel Nuts - Chrome

Protect your wheels with custom designed high-security Chrome locking wheel nuts.

Tow Bar Mounted Cycle Carrier

Premium tow ball mounted cycle carriers carrying solution with quick release loading attachments and secure locking mechanism. Clever design allows carrier to be tilted away from vehicle when fitted allowing access into the rear tailgate.

¹Requires lockable cooled glovebox to be fitted. ²Requires solar attenuating windscreen to be fitted. ³Requires auto-dimming, power fold door mirrors to be fitted.

Options specified may affect vehicle efficiency and pricing due to local taxation policy. Please configure at jaguar.com or check with your local Jaguar Retailer.

THE WORLD OF JAGUAR

Choose F-PACE SVR and you're joining the exciting World of Jaguar.

TRACK DAYS

There's no better way to get to know Jaguar than by taking a drive. The Jaguar Experience offers a range of unique opportunities to really find out what it feels like to get the most out of a Jaguar. Our track experiences allow you to push yourself and cars from the incredible Jaguar range to the limit.

Find out more by visiting jaguar.com/experience

BEHIND THE SCENES

Our factory tours give you the unique opportunity to experience the whole process of how our cars are brought to life – from the moulding of sheet metal to those intricate final touches. At our state-of-the-art production facilities, you'll get to see how skilled technicians and sophisticated machines work seamlessly together to perfect some of Jaguar's most breathtaking cars.

Find out more at jaguar.com/experience-jaguar/behind-the-scenes

ICE DRIVE EXPERIENCES

Take your driving to the next level with the Jaguar Land Rover Ice Drive Experience. From 2017, we are offering an adventure in Arjeplog, Sweden, that will test and develop your performance driving skills in extreme conditions. It's a rare chance for owners and enthusiasts to tackle some of the harshest and most challenging tracks on earth, under the skilled guidance of our experts. Our driving instructors are of the highest calibre and will be with you every step of the way – ready to impart years of driving wisdom. You will dance on ice, glide around some of the most awe-inspiring corners imaginable and realise the true exhilarating potential of Jaguar and Land Rover.

If you'd like to be part of the next adventure, find out more by visiting jaguar.com/experience-jaguar/iconic-experiences

FORMULA E

Jaguar's reputation for performance, technology and design was forged by the world's most challenging circuits and championships. From Le Mans to Formula 1, and now Formula E, the grid is our test-bed. Formula E provides the perfect proving ground for electric vehicle technology in a high performance environment. The racing series accelerates the development of Jaguar's electric powertrains. With every race, Formula E helps Jaguar engineers create better electric vehicles.

JAGUAR COLLECTION

The latest range from the Jaguar Collection has been crafted with the same design execution and attention to detail that goes into all of our cars. This is evident in our clothing range, premium leather items and luxury travel goods. To celebrate Jaguar's heritage, we also have a collection that honours past achievements and features race inspired gift items and apparel.

To find out more, visit the online shop at www.jaguar.com/shop

THE JAGUAR MAGAZINE

This is our own vibrant, cosmopolitan and contemporary magazine. Produced by a team of enthusiastic designers and feature writers, it goes behind the scenes at Jaguar as well as providing insight into the world of luxury, design, style and travel. You can enjoy Jaguar Magazine twice a year completely free of charge for the first three years. Ask your local Jaguar Retailer to ensure that you receive your copy.

AT YOUR SERVICE

As well as providing a range of exclusive services and lifestyle products, the World of Jaguar makes owning and driving carefree and easy.

JAGUAR CARE*

F-PACE SVR is offered with a three year or 100,000km warranty and three years' standard servicing programme. We call this programme Jaguar Care. It makes F-PACE SVR's overall cost of ownership one of the lowest in its class. To find out more about F-PACE SVR's Jaguar Care programme, please go to jaguar.com/jaguarcare

GENUINE PARTS

Jaguar Genuine Parts are designed, tested and manufactured to our uncompromising standards for quality, fit and durability. Each part is engineered specifically for your F-PACE SVR to contribute to optimum performance and to help maximise its lifespan.

FLEET & BUSINESS

Jaguars are dynamic and distinctive cars that help companies express the unique character and personality of their business. We are committed to providing customer-focused aftersales services, ensuring that every Jaguar performs to the highest standard and in the most cost-efficient way for businesses. Visit jaguar.com/fleet-and-business for more information.

JAGUAR ASSISTANCE

Jaguar Assistance provides assistance in motoring emergencies, from immobilisation due to breakdown or accident to minor problems such as punctures. You can rely on our roadside assistance, whatever the situation, wherever you happen to be.

JAGUAR FINANCIAL SERVICES

New or used, for personal or business use, we have a finance option that puts you in complete control. Please speak to your local Jaguar Retailer to find out more.

INSURANCE

F-PACE SVR's key components are easily accessible for time-efficient service and repair costs. With a focus on lower repair costs, F-PACE SVR delivers competitive insurance group ratings. To find out more about the compelling business case for F-PACE SVR, please contact your local Jaguar Retailer.

IMPORTANT NOTICE

Jaguar Land Rover Limited is constantly seeking ways to improve the specification, design and production of its vehicles and alterations take place continually. While every effort is made to produce up-to-date literature, this brochure should not be regarded as an infallible guide to current specifications, nor does it constitute an offer for the sale of any particular vehicle. Distributors and Retailers are not agents of Jaguar Land Rover Limited by any express or implied undertaking or representation. Comparisons are based on manufacturer's own data and testing prior to publication.

COLOURS

The colours reproduced here are subject to the limitations of the printing process and may therefore vary slightly from the actual vehicle. The company reserves the right to alter or withdraw any colour finish without notice. Some of these colours may not be obtainable in your country. Please check availability of colours and current specifications with your Jaguar Retailer. Distributors and retailers are not agents of Jaguar Land Rover Limited and have absolutely no authority to bind Jaguar Land Rover Limited to any express or implied undertaking or representation.

ENVIRONMENTAL INNOVATION AT JAGUAR

Jaguar is committed to reducing dependency on fossil fuels, using fewer natural resources and creating less waste as part of our approach to responsible and sustainable business development.

Search 'Jaguar Environmental Innovation' for more details.
